SUMMERSIDE™ Steel Shingles are designed to outlast and outperform traditional roofing materials. Precision engineered from 28-gauge steel with a double embossed finish, they're stronger than most other metal shingle roofing systems. The unique four-way interlocking system tightens on all four sides so although they're incredibly lightweight, they provide superior strength from high winds and heavy snow. **SUMMERSIDE™** Steel Shingles are manufactured from recycled steel and are 100% recyclable at the end of their long lifecycle.

SUMMERSIDE™ Steel Shingles are sustainable and made in Canada. Backed by a 50-year lifetime limited transferable finish warranty and virtually maintenance-free, a **SUMMERSIDE™** Steel Shingle roof will enhance your home's visual appeal for years to come and unlike traditional shingles, won't have to be replaced... ever!

SUMMERSIDE™ STEEL SHINGLES

THE RESIDENTIAL METAL ROOFING COLLECTION BY VICWEST

Choosing a new roof is an important decision. Cost, longevity, maintenance, resale value and curb appeal all come into play. Current research proves the superiority of a metal roof but lets face it, your roof should complement your home and neighbourhood's architectural style, not overpower it! SUMMERSIDE™ Steel Shingles will give your home an understated elegance. Classic, not clunky, a SUMMERSIDE™ Steel Roof offers superior protection and beauty... a winning combination!

The classic, understated elegance of a **SUMMERSIDE™** Steel Shingle roof will complement any home style and suit any neighbourhood.

FASTENERS

It's not just a roof,
it's a shield of protection
for your home

Why Metal is worth the investment

Ordinary roofing materials have shorter life spans and will need to be replaced regularly, especially in areas that see an influx of hot and cold temperatures coupled with high weather activity. With constantly increasing material and labour costs, this could result in significant expense over the life of your home. A roof purchase isn't something you plan on, so why do it twice? With warranties up to 50 years, a Vicwest metal roof will save you money and future financial worry since you'll never have to re-roof again! In addition, the enhanced curb appeal and durability it provides can help increase resale value should you decide to sell your home.
