Vicwest helps communities build for tomorrow, through:

Inspirational innovations

Our design engineers have been at the forefront of creating metal building materials that are enduring and can be formed, shaped, and customized to achieve virtually any design inspiration. That's why North America's most renowned architects and contractors trust Vicwest to deliver curb appeal that lasts a lifetime.

Sustainable solutions

Our metal roofing and wall systems offer protection from elements while protecting the environment. Not only are our products environmentally friendly, but our manufacturing facilities produce them in an environmentally responsible way – using net-zero energy through carbon offsets. We're proud to lead our industry in our mission to be net-positive within the next few years – and we're helping our entire supply chain to do the same.

Durable products

Since 1930, Vicwest has been North America's metal structure experts – engineering and manufacturing metal roofing and wall systems that withstand our harshest climates. Designed to last a lifetime and backed by one of the best warranties in the industry, Vicwest has you covered. In fact, you may never have to re-roof again.

TRUE NATURE

METAL ROOF TILES

Inspired by Nature
Engineered by Vicwest

NATURAL APPEARANCE

Whether it's shake from a cedar tree, or slate quarried from a mountain side – our proprietary engineering process has enabled us to create metal casts that look unprecedentedly realistic.

Traditional **shake tiles** have a tendency to warp, split, mold, and eventually rot. True Nature's Cedar Creek Shake tiles provide all the aesthetic benefit of a shake roof without the degradation.

Slate tiles are beautiful but heavy and prone to breakage and algae growth. True Nature's North Ridge Slate tiles are incredibly lightweight and will never break.

True Nature metal tiles look and work better than traditional materials when it comes to protecting your home.
