Stronger, safer, more secure and surprisingly affordable, investing in a metal roof is a wise choice.

The Vicwest Commitment

For more than 85 years, we've understood that people choose Vicwest not only because we build superior products, but because we stand behind them. Every Vicwest product we sell is backed by the best warranty in the business so you can rest assured that the roof you choose today, will protect your home for years to come. At Vicwest, we're committed to continually improving upon and developing new building products to protect the places where we live, work and play. At Vicwest, we're *building for tomorrow*.

We'd Love to Hear From You

We welcome your suggestions and feedback. Visit vicwest.com and send us a message via the **Contact us** form.

Warranty Information

Concluding the installation of your new Vicwest metal roof, warranty certificates will be issued directly to the homeowner upon completion of online registration: vicwestwarranty.com. This will be required for transferable warranties.

In accordance with ongoing efforts to improve our products and their performance, Vicwest Building Products reserves the right to change, without notice, the specifications contained herein.

BUILDING FOR TOMORROW

ULTRAVIC

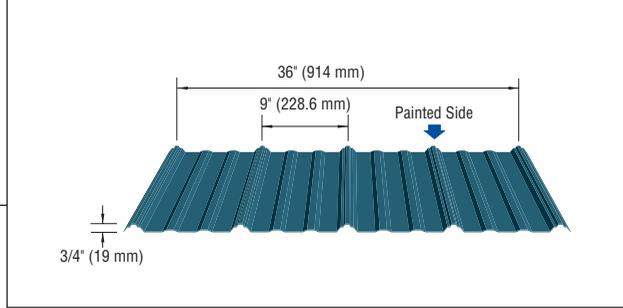

THE RESIDENTIAL METAL ROOFING COLLECTION BY VICWEST

When superior protection is key, UltraVic, our classic metal roofing profile, is the perfect choice. Available in 28-gauge steel, it can withstand heavy snow, high winds, torrential rain and hail, and it won't fade, crack, peel or burn, so it will look like the day it was installed for years to come. More than a roof, think of it as a permanent shield of protection for your home, adding value and guarding your biggest asset against the elements.

Why Metal is worth the investment

Ordinary roofing materials have shorter life spans and will need to be replaced regularly, especially in areas that see an influx of hot and cold temperatures coupled with high weather activity. With constantly increasing material and labour costs, this could result in significant expense over the life of your home. A roof purchase isn't something you plan on, so why do it twice? With warranties up to 50 years, a Vicwest metal roof will save you money and future financial worry since you'll never have to re-roof again! In addition, the enhanced curb appeal and durability it provides can help increase resale value should you decide to sell your home.

Excellent weather protection
available in an array of rich colours

Made in Canada, our **UltraVic** roofing system is built to withstand extreme Canadian weather conditions

UltraVic is a classic metal roofing profile that is easy to install — the perfect solution for home and cottage owners seeking an economical, low maintenance roofing solution.

Extra strengthening in the side laps and intermediate ribs give UltraVic improved weather protection, incomparable snow load capacity and increased rigidity.

UltraVic has a 36-inch coverage per area sheet, with exposed fasteners so it installs quickly.

Engineered from 28-gauge steel and backed by a 40-year limited finish warranty, **UltraVic** roof won't warp, crack or chip, resists mold and mildew and resists fire.

- WITHSTANDS:**
- RAIN
 - FIRE
 - EXCELLENT IN TREED AREAS
